### Summary:

The California Safe Drinking Water Act requires the State Water Resources Control Board, before ordering consolidation or extension of service, to, among other things, make a finding that consolidation of the receiving water system and subsumed water system or extension of service to the subsumed water system is appropriate and technically and economically feasible. This bill would modify the provision that authorizes consolidation or extension of service if a disadvantaged community is reliant on a domestic well described above to instead authorize consolidation or extension of service if a disadvantaged community, in whole or in part, is reliant on domestic wells that consistently fail to provide an adequate supply of safe drinking water.

**Position:** Watch

**Subject:** Disadvantaged Communities, Water

**CALAFCO Comments:** This bill allows the SWRCB to order an extension of service in the case a disadvantaged community has at least one residence that are reliant on a domestic well that fails to provide safe drinking water. It allows members of the disadvantaged community to petition the SWRCB to initiate the process. It allows the owner of the property to opt out of the extension. The bill also places limitations on fees, charges and terms and conditions imposed as a result of the extension of service. Finally, the extension of service does not require annexation in the cases where that would be appropriate.

### Summary:

The Planning and Zoning Law requires a city or county, on or before the due date for the next adoption of its housing element, to review and update the land use element of its general plan based on available data, including, but not limited to, the data and analysis of unincorporated island, fringe, or legacy communities inside or near its boundaries, as provided. That law requires the updated land use element to include, among other things, an analysis of water, wastewater, stormwater drainage, and structural fire protection needs or deficiencies for each identified community. This bill would define the term "needs or deficiencies" for these purposes to mean both deficient services and lack of services, as specified.

**Subject:** Disadvantaged Communities, Water

**CALAFCO Comments:** This bill creates a requirement for all cities, counties and certain special districts to develop an accessibility plan if they have DUCs identified in the land use element of the respective city or county. The accessibility plan is intended to be a plan for services to get those DUCs drinking water, wastewater and fire services. Contents of the plan are questionable (at best) and include things such as the identification of the entity best positioned to provide the service; actions necessary to be taken by the LAFCo to enable the provision of services to the DUC; any action the local agency feels the LAFCo will require them to take; cost/benefit analysis; and funding analysis. The agency then must submit the plan to the LAFCo, who is required to approve or conditionally approve within 90 days of receiving in a public hearing.

The bill includes as a purpose of the commission, to consider "equity" in addition to local circumstance and conditions, yet the bill leaves this term undefined.

The bill allows extension of service without annexation if a majority of residents (not registered voters) oppose the

**Summary:**

Would authorize the commission to propose, as part of the review and approval of a proposal for the establishment of new or different functions or class of services, or the divestiture of the power to provide particular functions or class of services, within all or part of the jurisdictional boundaries of a special district, that the special district, to mitigate any loss of property taxes, franchise fees, and other revenues to any other affected local agency, provide payments to the affected local agency from the revenue derived from the proposed exercise of new or different functions or classes of service.

**Position:** Watch

**Subject:** CKH General Procedures

**CALAFCO Comments:** This bill allows LAFCo, when approving a proposal for new or different functions or class of service for a special district, to propose the district provide payments to any affected local agency for taxes, fees or any other revenue that may have been lost as a result of the new service being provided.

**Summary:**

Current law authorizes the State Water Resources Control Board to order consolidation of public water systems where a public water system or state small water system serving a disadvantaged community consistently fails to provide an adequate supply of safe drinking water, as provided. This bill, the Consolidation for Safe Drinking Water Act of 2019, would authorize a water or sewer system corporation to file an application and obtain approval from the commission through an order authorizing consolidation with a public water system or state small water system, or to implement rates for the subsumed water system.

**Position:** Watch

**Subject:** Water

**CALAFCO Comments:** This bill allows for water (public or state small) or sewer systems corps to file an application for consolidation with the SWRCB.

**Summary:**

Current law requires a commission to develop and determine the sphere of influence of each city and each special district within the county and enact policies designed to promote the logical and orderly development of areas within each sphere. Current law requires the commission, in order to prepare and update spheres of influence in accordance with this requirement, to conduct a service review of the municipal services provided in the county or other appropriate area designated by the commission, as specified. Current law defines "sphere of influence" to mean a plan for the probable physical boundaries and service area of a local agency. Current law defines the term "service" for purposes of the act to mean a specific governmental activity established within, and as a part of, a general function of the special district, as specified. This bill would revise the definition of the term "service" for these purposes to mean a specific governmental activity established within, and as a part of, a function of the local agency.

**Summary:**

The Fire Protection District Law of 1987 provides that whenever a district board determines that it is in the public interest to provide different services, to provide different levels of service, or to raise additional revenues within specific areas of the district, it may form one or more service zones by adopting a resolution that includes specified information, fixing the date, time, and place for public hearing on the formation of the zone, publishing notice, as specified, hearing and considering any protests to the formation of the zone at the hearing, and, at the conclusion of the hearing, adopting a resolution ordering the formation of the zone. If a resolution adopted after the public hearing would substantially expand the provision of services outside of an existing service zone and the extension of service would result in those persons in the expanded area paying charges for the expansion of services, this bill would provide that the resolution does not become effective unless approved by a majority of the voters within the expanded service area.

**Position:** Watch

**CALAFCO Comments:** This bill amends the Health & Safety code regarding the formation of zones within a fire protection district by requiring the district hold an election, regardless of the protest level, if the district wants to substantially expand services outside the zone. This is unrelated to 56133. CALAFCO will retain a Watch position.

**Summary:**

Would create the Small System Water Authority Act of 2019 and state legislative findings and declarations relating to authorizing the creation of small system water authorities that will have powers to absorb, improve, and competently operate noncompliant public water systems. The bill, no later than March 1, 2020, would require the state board to provide written notice to cure to all public agencies, private water companies, or mutual water companies that operate a public water system that has either less than 3,000 service connections or that serves less than 10,000 people, and are not in compliance, for the period from July 1, 2018, through December 31, 2019, with one or more state or federal primary drinking water standard maximum contaminant levels, as specified.

**Position:** Watch**Subject:** Water

**CALAFCO Comments:** This bill is very similar to AB 2050 (Caballero) from 2018. Several changes have been made. This bill is sponsored by Eastern Municipal Water District and the CA Municipal Utilities Assoc. The intent is to give the State Water Resources Control Board (SWRCB) authority to mandate the dissolution of existing drinking water systems (public, mutual and private) and authorize the formation of a new public water authority. The focus is on non contiguous systems. The SWRCB already has the authority to mandate consolidation of these systems, this will add the authority to mandate dissolution and formation of a new public agency.

LAFCo will be responsible for dissolving any state mandated public agency dissolution, and the formation of the new water authority. The SWRCB's appointed Administrator will act as the applicant on behalf of the state. LAFCo will have ability to approve with modifications the application, and the new agency will have to report to the LAFCo annually for the first 3 years.

**Summary:**

The Mitigation Fee Act, among other things, requires fees for water or sewer connections, or capacity charges imposed by a local agency to not exceed the estimated reasonable cost of providing the service for which the fee or charge is imposed, unless a question regarding the amount of the fee or charge imposed in excess of the reasonable cost of providing the service or materials is submitted to and approved by 2/3 of the electors voting on the issue. This bill would state that a fee or charge for the extension of water or sewer service may not be utilized for facilities or services other than those for which the fee or charge is imposed.

**Position:** Neutral**Subject:** CKH General Procedures

**CALAFCO Comments:** UPDATE AS OF THE 4/11/19 AMENDMENTS: These amendments address all of our concerns and the bill now only addresses fees.

This bill does 3 things. (1) Seeks to add a provision to 56133 that requires LAFCo to approve an extension of service regardless of whether a future annexation is anticipated or not. It further requires the service provider to extend the provision of service to a property owner regardless of a whether there is a pending annexation or pre-annexation

agreement. The newly proposed subsection directly contradicts subsection (b). (2) Changes the definition of "fee" by requiring the new fee "is of proportional benefit to the person or property being charged." There is no reasonable definition or application of "proportional benefit". (3) Narrows the scope of application of Section 56133 to water or sewer service; and prohibits the service provider to charge higher fees and charges to those outside the jurisdictional boundaries.

**Summary:**

Current property tax law, for the 2006–07 fiscal year, and for each fiscal year thereafter, requires the vehicle license fee adjustment amount to be the sum of the vehicle license fee adjustment amount for the prior fiscal year, if specified provisions did not apply, and the product of the amount as so described and the percentage change from the prior fiscal year in the gross taxable valuation within the jurisdiction of the entity. Current law establishes a separate vehicle license fee adjustment amount for a city that was incorporated after January 1, 2004, and on or before January 1, 2012. This bill would establish a separate vehicle license fee adjustment amount for a city incorporating after January 1, 2012, including an additional separate vehicle license fee adjustment amount for the first fiscal year of incorporation and for the next 4 fiscal years thereafter.

**Summary:**

The Fairfield-Suisun Sewer District Act creates the Fairfield-Suisun Sewer District and grants to the district various powers relating to the treatment and disposal of sewage. The current act provides for the election of a board of directors for the district and administrative procedures for the operation of the district.
